Mozilla Firefox

The all new **EASiKIT** CCTV system is more than just a 4 camera security system. It's a complete solution which offers peace of mind for your home or business

The **EASiKIT** is able to constantly record video to it's internal 500Gb hard drive. Once the system detects movement, it can send an email to alert you of a possible intruder.

Once you have received the email from the **EASiKIT** you can quickly and easily view your premises directly from your computer or mobile device.

Supplied complete with night vision cameras which can be used indoors or outdoors, a digital video recorder, ready made cable and a system power supply unit, the **EASiKIT** really is CCTV made simple!

EASiKIT Features:

- Built in 500Gb hard drive can record up to 30 days
- When the hard drive is full, the oldest footage is overwritten
- Armoured dome cameras suitable for indoor or outdoor use
- Infra-red illumination allows the cameras to see at night
- System can detect movement and email alerts directly to you
- Log in and view your premises on a mobile device or computer

The **EASiKIT** Includes:

- 1 x 4 Channel 500GB DVR
- 4 x Indoor / Outdoor IR Cameras
- 4 x 20 Metre Video & Power Cables
- 1 x System Power Supply
- 1 x IR Remote Control
- 1 x USB Mouse
