## £2k Cash Rating (Electronic)

Our £2k cash rating electronic safes have been designed to protect your valuables and documents against fire. Each safe offers 60 minutes of certificated fire resistance.

We combine this fire resistance with a functional, elegant design and a beautiful anthracite coloured finish.

- 60 minutes certified fire resistance for paper
- 6 sizes available
- Electronic lock for maximum user convenience
- Torino 3 to 6 are equipped with an extra storage drawer
- Extra burglary protection due to four solid bolts on all sides of the safe door

Product no.	Type / Model	External dimensions	Internal dimensions	Kg	Shelves	Volume

## £10k Cash Rating

The risk of burglary is quite different compared to the risk of fire. Normally you would need two safes to protect yourself against both fire as well as burglary. The Eyden 10k Free Standing however offers you protection against both for the price of just one safe!

The Eyden 10k Free Standing has been successfully tested against burglary. The German certifying body has rewarded the Bologna with a certificate according to EN 1143-1 Grade I.

It has also undergone a strict fire test and has received a LFS 60P certificate (ECB-S) according to EN 15659. This means that the temperature stays well below 170°C for a period of 60 minutes, so that your valuable documents stay intact.

- Standard shelf/shelves included
- Double bitted key lock or electronic lock
- ECB-S certified burglary resistance according to EN 1143-1 Grade 1
- Integrated anti-drill and cutting torch protection
- ECB-S certified fire resistance according to EN 15659 LFS 60P (60 minutes for paper)
